How to Redirect a URL

Some Societies opt to purchase their own domain names like WPSNewEngland.com. They then redirect the URL to another site such as the group page on Sallyport. Most sites have instructions for how to do the redirect. We are sharing two of the more common sites for your reference.

[GoDaddy Instructions](#)

[Wix Instructions](#)

It is very important to share the account login information within the Society Leadership because WPAOG will not be able to do it for you.
